

INFIRAY OUTDOOR  
**BOLT SERIES**

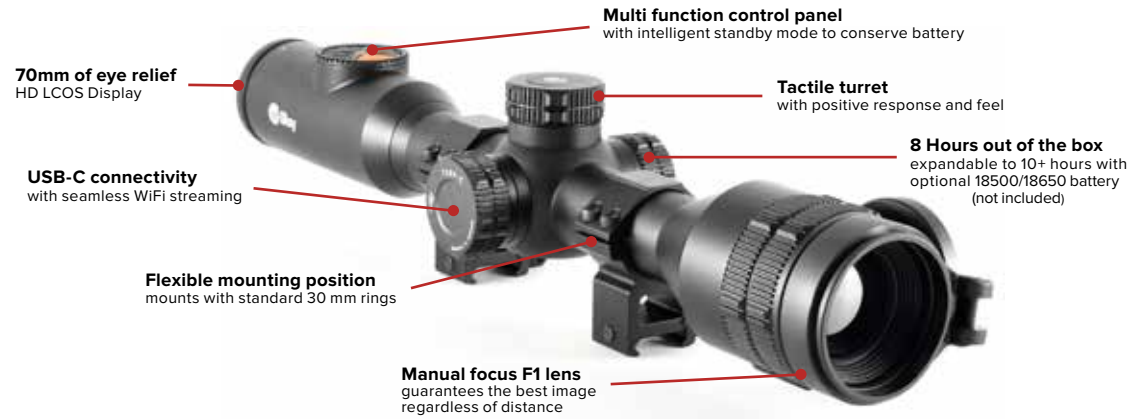

**Bolt Action Optimized Thermal Rifle Scope**

The BOLT Series was designed for optimal use on bolt action rifles and other platforms that demand flexible mounting options and increased eye relief. The T-6061 aluminum housing of a BOLT allows mounting with standard 30mm rings like a traditional day scope. Inside of the BOLT, a 50Hz 12 $\mu$ m detector, HD Display and manual focus lens all team up to create an image that's anything but traditional. All BOLT Series rifle scopes feature a dual battery design for 10 hours of run time, and have 16 Gb of internal memory to keep your optic going all night, even after your hunting buddy falls asleep.

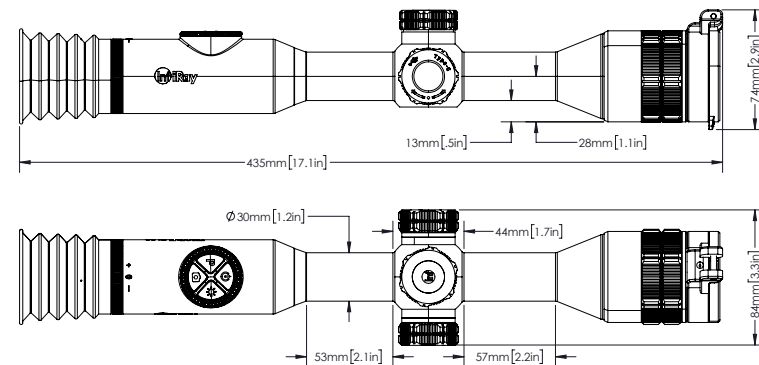

BOLT SERIES		TL35
<b>SENSOR</b>
